

Banner Display Frames

Portable banner frames

Free-standing

Portability is really about having the ability to install branding or advertising in the most favourable position, giving maximum impact whatever the location.

The tie-bars on the sides secures the 'A' profile and allows this frame to stand on hard surfaces.

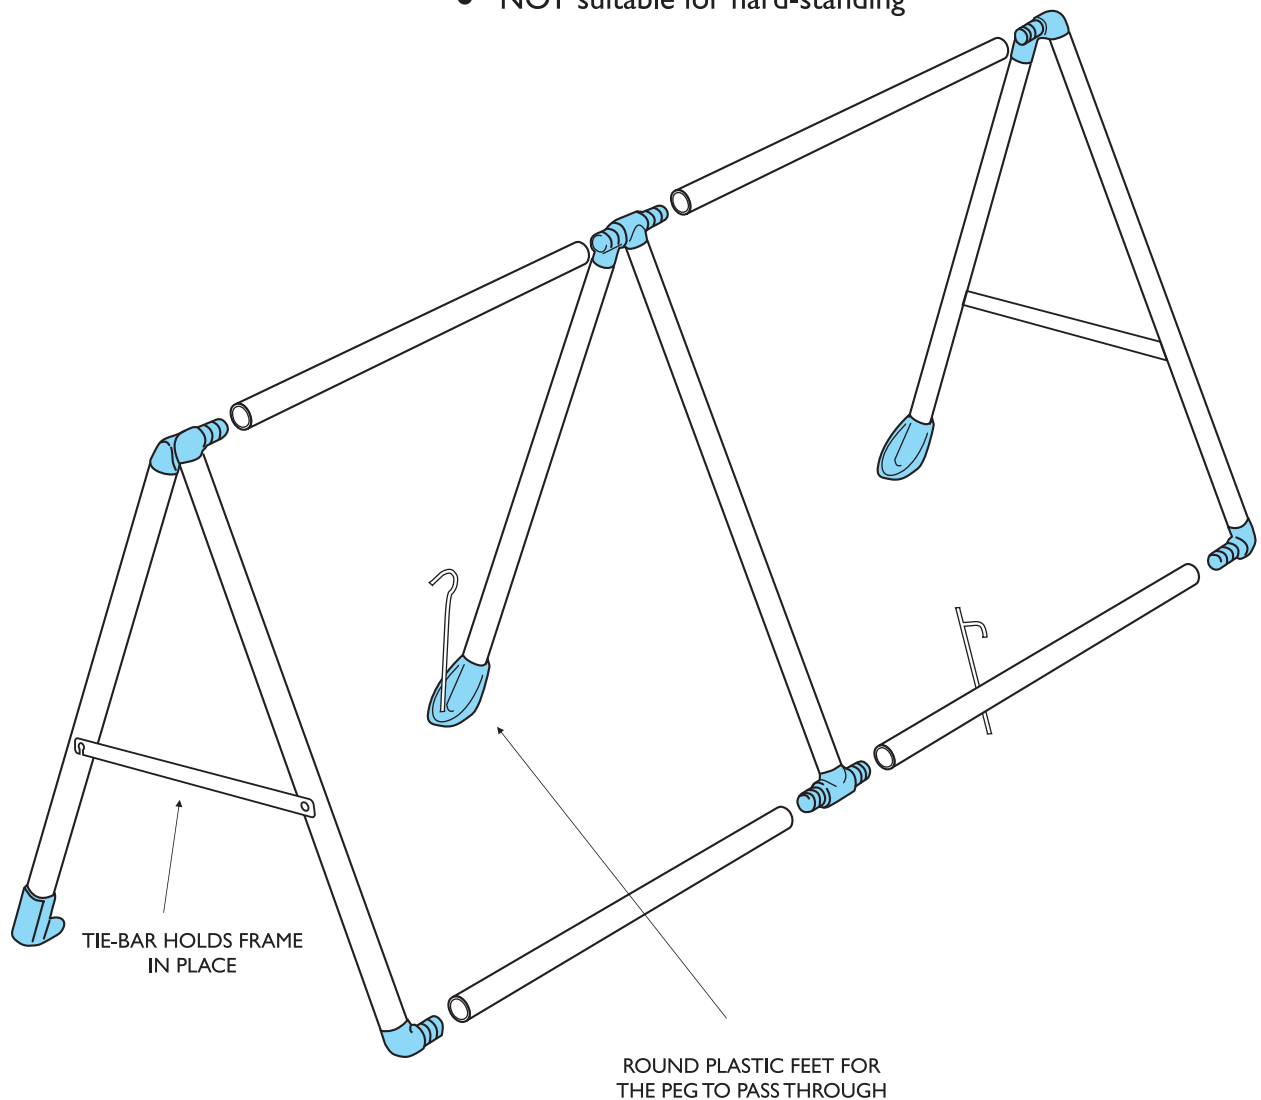

Banner Display Frames

Heavy duty frames

Factors you need to know

- Made from anodised aluminum 30mm diameter tube
- Cast aluminium joints for strength with rubber 'O' rings for ease of fitting
- Frame can be anchored with pegs
- Frame becomes tensioned when banner is in place
- Pegs and looped elastic are provided together with carrying bag for ease of storage and transport
- Fits easily into the back of a car
- Frames basically made up of 5ft x 3ft (1.524m x 0.914m) modules. This is flexible to suit different banner sizes
- Maximum recommended banner size 20ft x 4ft (6.10m x 1.2m) or 30ft x 3ft (9.144m x 0.914m)
- 6" or 3" gap all round banner
- NOT suitable for hard-standing

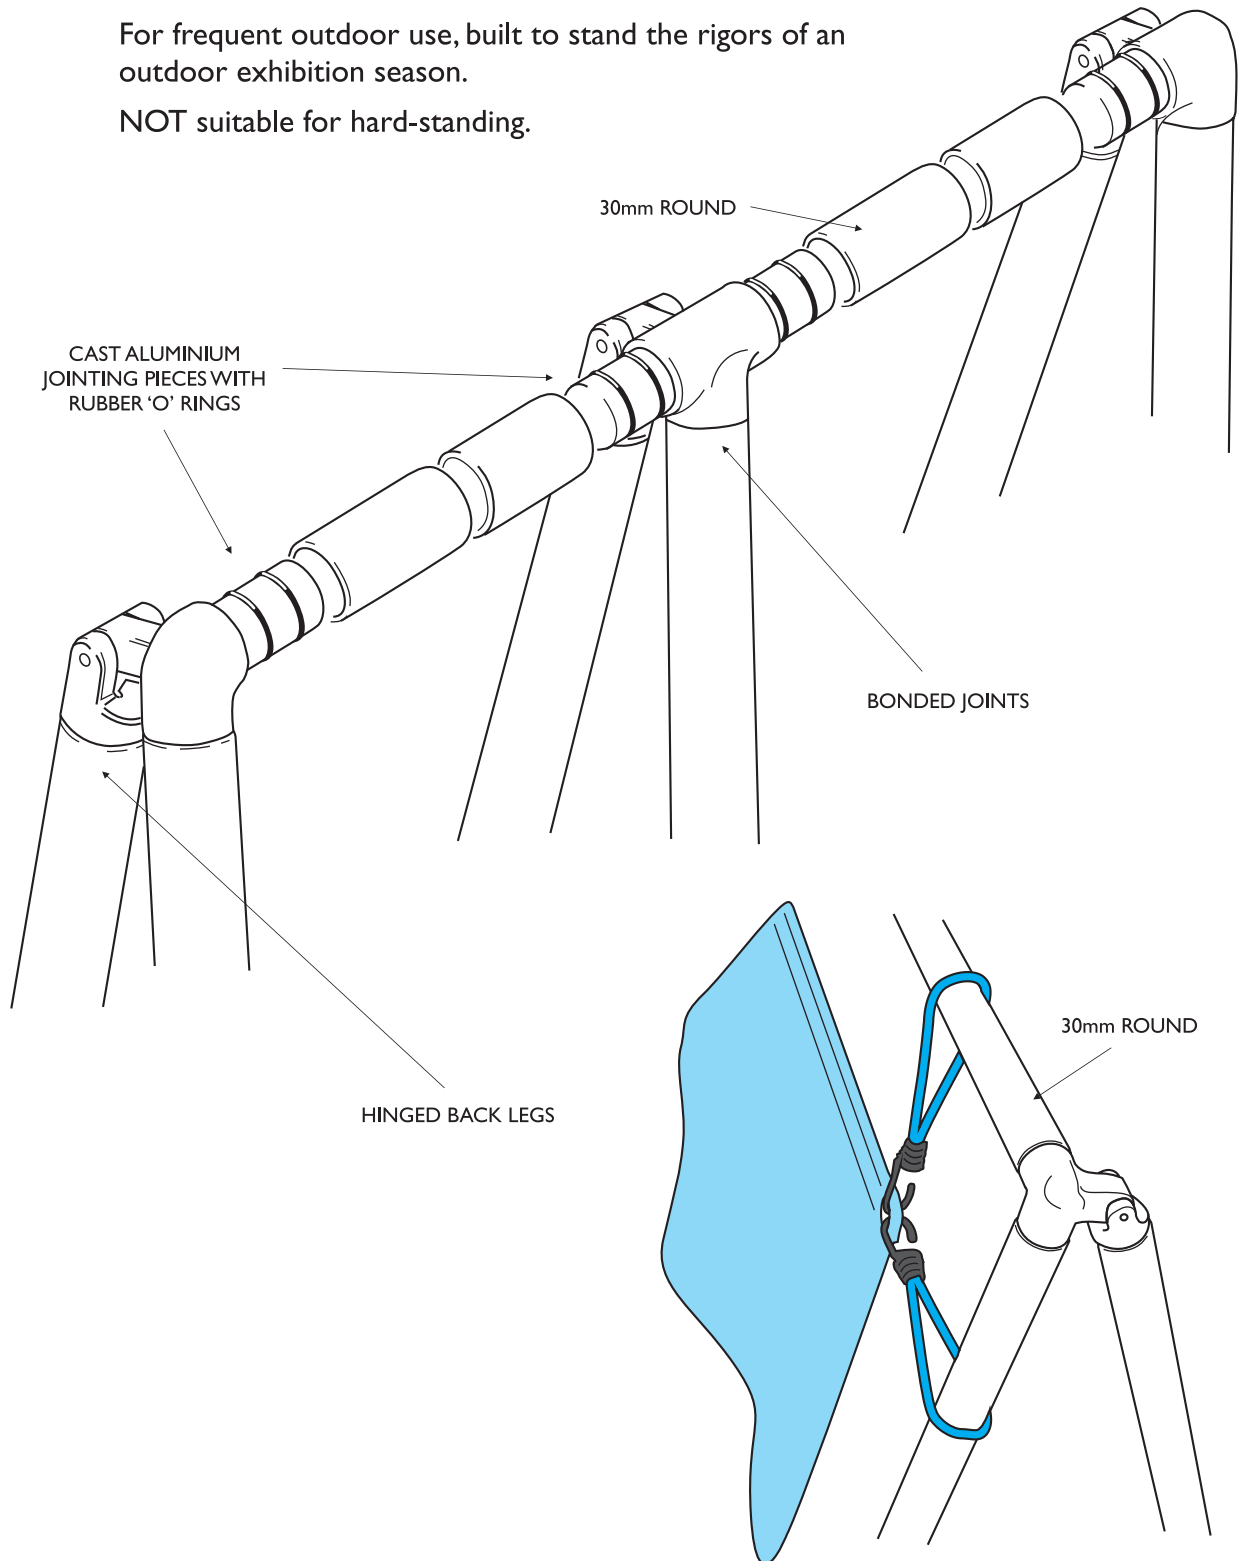

Banner Display Frames

Heavy duty frames

For frequent outdoor use, built to stand the rigors of an outdoor exhibition season.

NOT suitable for hard-standing.

Banner Display Frames

Elevated banner frames

Take control of your audience! Portability is really about having the ability to install branding or advertising in the most favourable position, giving maximum impact whatever the location.

Don't compromise on 'out of the way' or obscured positions. Think about visitor flow and camera positions.

Remember to tell our sales advisor whether you will be using your banner frames on hard or soft standing.
