

Folding Instructions

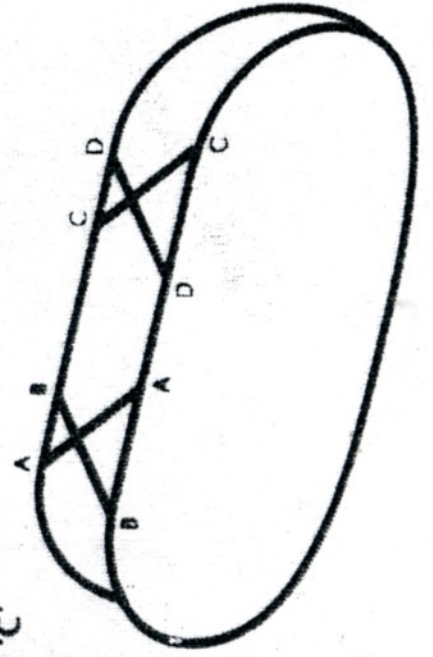

The unique design of the POP-UP-'A' FRAME makes opening and closing of the banners as easy as a-b-c.

- A - Separate the velcro legs, and allow to hang (Refer to Fig. A).
- B - Grasp the POP-UP-'A' FRAME in the center at the top and bottom and push both hands together (Refer to Fig. B). The frame will automatically form a "figure of eight" shape.
- C - Keeping the "figure of eight" shape by holding the cross-over-point with one hand, fold over in half and the POP-UP-'A' FRAME is ready to put away in its carry bag (Refer to Fig. C).

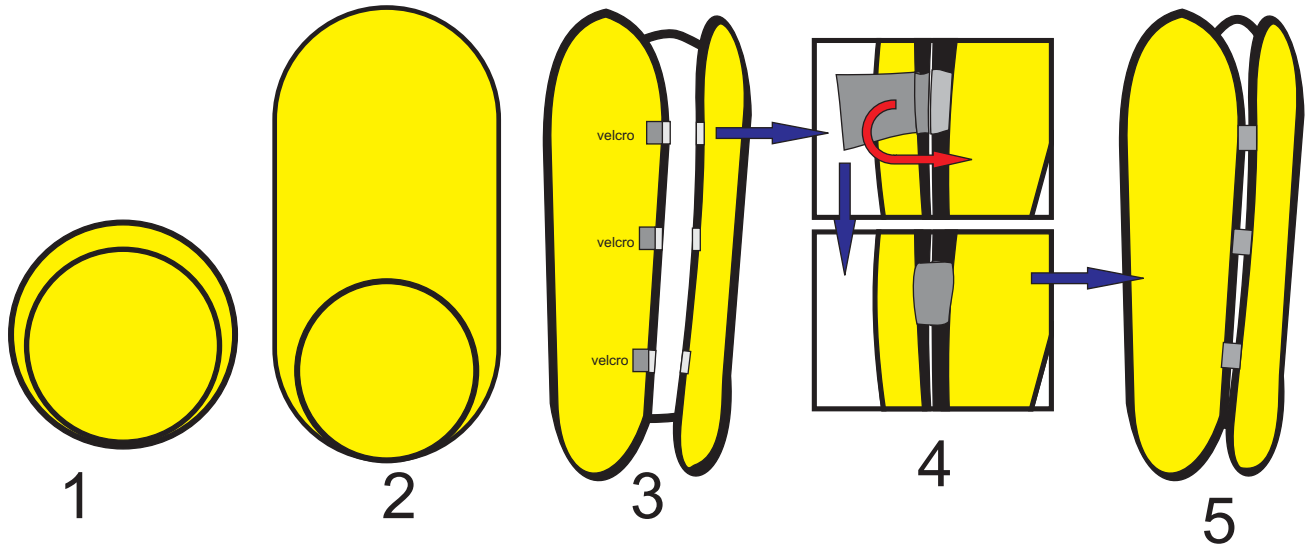

Assembly Instructions

- A - Turn banners up-side-down.
- B - Attach 'A' to 'A', 'B' to 'B', 'C' to 'C' and 'D' to 'D' (Refer to Figure).

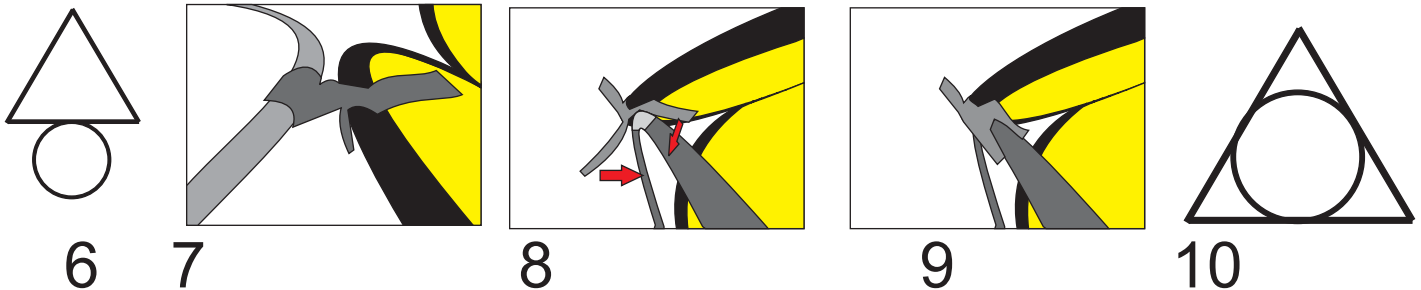

PEGS INSIDE

Tower Instructions

1. Remove the tower from the bag and open up flat (2)
3. Stand the tower up right and on the two outside panels line up the three opposite velcro edges and wrap the velcro flap around the opposite panel to secure the tower closed. (4 & 5)

6. Lay the tower flat on a clean surface, the center panel with the foot ring will lay face down.
7. ensure the foot ring is not twisted at the joint to the middle panel.
- 8/9 fold the ring up so that it is touching all three panels. On the foot ring you will see two strips of velcro. Line each one with the velcro straps on the two tower panels. ensure that the ring is pushing against the tower panel and then wrap the two straps around the ring, thus fastening the ring and the panel together. Now do the same at the point where the ring is attached to the center panel. Stand the tower up and just give it a twist to get it straight.
